Our Mission

"Happy Life" was established in 2004 by a group of friends who care about society and love life. We believe that life is joyful, and it does not matter how much money or material things you have, nor whether the circumstances in your life are going well, nor how good or bad you feel. You can fill your life with joy because God is the source of joy.

Our goal

Helping people understand the value of life from the moment of conception to the natural end of life. "Joy" and "life" are closely linked to each other. We believe that as long as there is true "joy" in the heart, people will choose "life".

We are committed to helping individuals, couples and groups understand that life is filled with love, respect and dignity and is precious.

The chairman remarks:

Since its establishment in 2004, Joyful Life's main work and mission have centered around protecting and defending life, with the hope of gradually building a culture of life in society.

We have been working hard without asking for rewards. Thankfully, in 2019, through a chance opportunity and the collaboration with different groups and organizations, we co-produced a four-episode microfilm series titled "Love Life" (themes: Responsibility, Am I Not Lovable?, Unfading Marks, The Crossroads of Life). The series was later played in various schools, churches, and even online with overseas church groups through the Diocesan Marriage and Family Pastoral Committee, sparking increasing echoes and praise. The audience's reactions were enthusiastic, and the series received rave reviews, with participants commending it highly, considering it "very professional and outstanding, touching, yet not overly preachy." Although we are just a humble and resource-limited group without staff or even an office, relying entirely on volunteers' time and effort, we firmly believe that "it is more blessed to give than to receive." We hope that through this microfilm, we can continue to sow small seeds of life culture in various corners of society, making the impossible possible, allowing more people to feel the joy of life.

Joy of Life continues to promote the intrinsic and precious values of human life with special emphasis on the youngest member of the human family. Our resources and man power has been limited, but we tried hard to promote the life messages and continue to educate the public through various ways such as giving talks, publications, making pro-life materials like fetal models and spreading relevant information in the social media like face book and YouTube.

Activities:

1. Promotion of pro-life news and events through face book page.

The face book is a good platform to share pro-life news and relevant information. We regularly share good information about pro-life news around the world and local pro-life events and activities to enable more people to take part.

2. Promotion and showing pro-life micro-film movie. The following are the themes and the stories of the four micro pro-life movies.

5. Participating and help to organize in a Christian conference

基督教性倫理峰會2023 於播道神學院舉行 18-35歲年青信徒參與為主

18-11-2023

The summit was held this afternoon at Evangel Theological Seminary, with young believers aged 18-35 participating mainly. Faced with the increasingly diverse sexual values in the world, believers, in addition to clearly knowing the values of their faith, will also come into contact with friends with different values and lifestyles.

They need to know how to get along with them, and the most important thing is to listen and understand first. "Sexual ethics" not only talks about "behavior", but also touches on three-dimensional "life" with flesh and blood. Every decision involves intricate connections with time, place, and people, such as birth, growth, marriage, circumstances, and culture.

The Christian Sexual Ethics Summit hosted by the Love Family Inclusion Network was held this afternoon (November 18, 2023). The open house will be held from 1pm to 6pm at Evangel Theological Seminary. The number of applicants is 269, targeting young believers or interested persons aged 18-35.

The theme is "What Really Happened? - The Story Behind Sex". Through experiential methods, participants can explore life stories one after another. Including homosexuals, parents with homosexual children, one woman per apartment, divorced and remarried families, single fathers, parents who have lost their fetuses, people who have undergone abortions, cohabiting, heartbroken, infidelity, singleness, etc.

Through a series of experiential journeys, we can enter the inner world of different lives, have dialogues and connections with God, ourselves and the community, and re-experience the role of faith communities in the era of sexual liberation. The summit is divided into three stations.

The first stop is the introduction to the space, where you can prepare yourself through videos and exhibits. The second stop is the experiential story space. Participants are free to choose any session. Including "The Secret of the Heart" and "Why Become Feng Jie?" 《One Person's Realm》 《The Distance Between Eugenics and Evil》 《Drink a Can of Soda and Exhale a Sigh》 《Divorce is Never Easy》 Interactive Theater, 《Am I Not Loveable? 》 Film screening, "Real Person Library", "Theological Short Lectures" The third stop is a sharing space where participants can write down their feelings and leave comments.
